Rain

Welcome the emptying of the clouds with arms wide open.

The Rain mode lets you enjoy an extra-large overhead shower zone for a complete body bath. With pearls of water streaming from every jet on the large shower head, the Rain mode's generous coverage is as rejuvenating as the monsoon's first downpour.

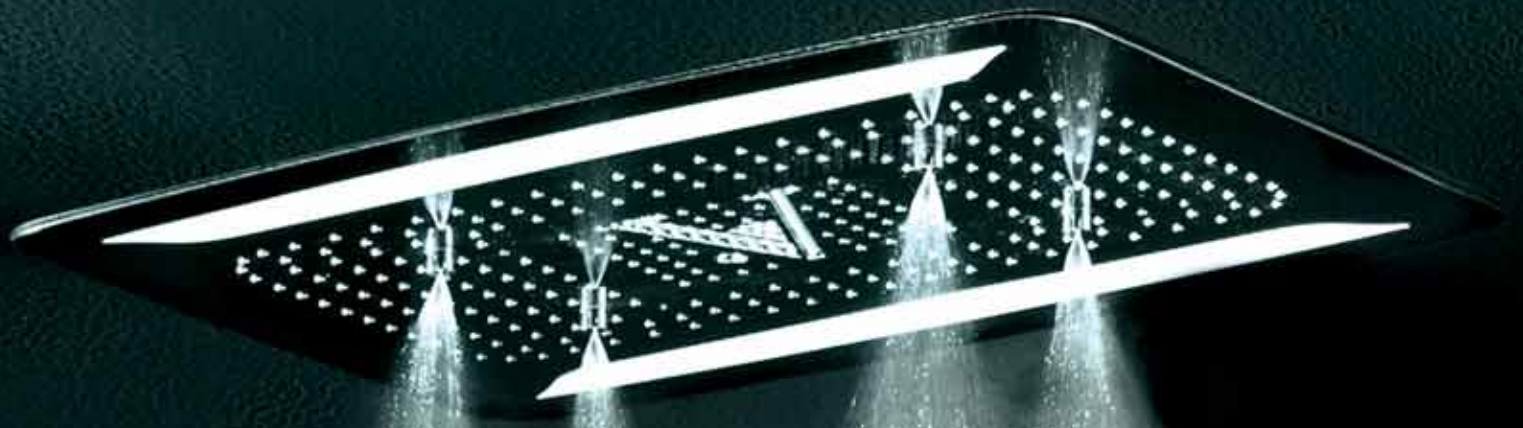

Intense

Feel the drums of the rain gods play a thrilling tune on your skin.

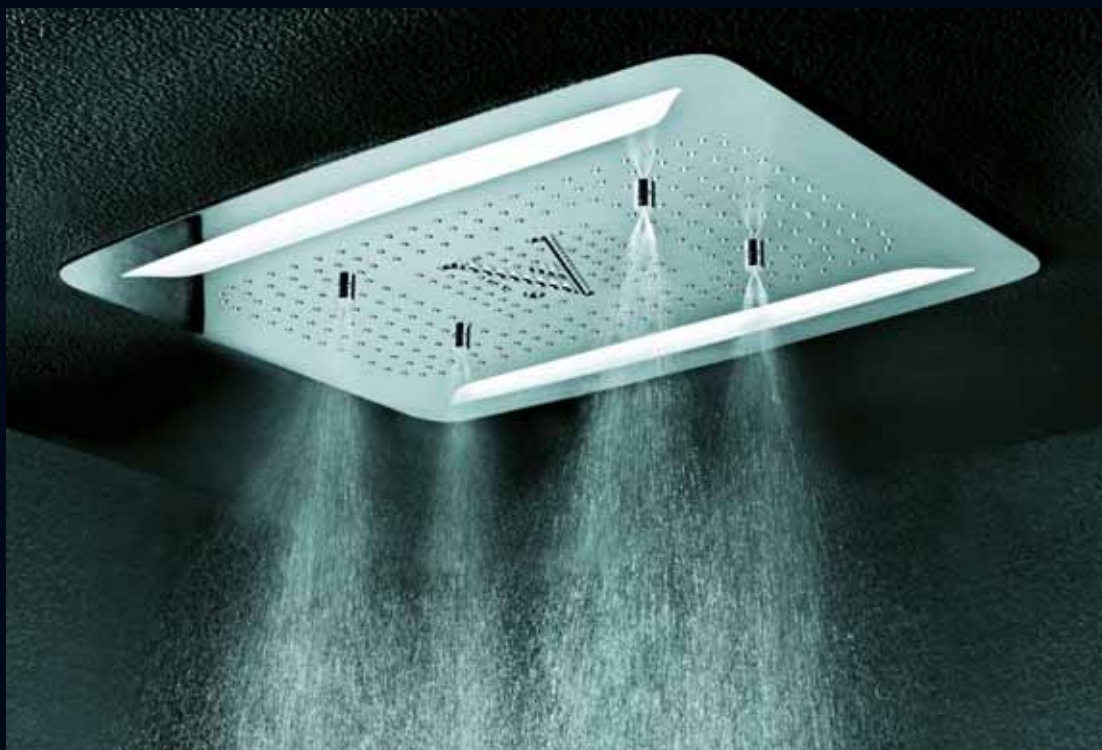

Concentrating a powerful flow of heavy drops into a small area from the central jets, the Intense mode is spread perfectly to fall on your head and shoulders, and relax and recharge you in minutes.

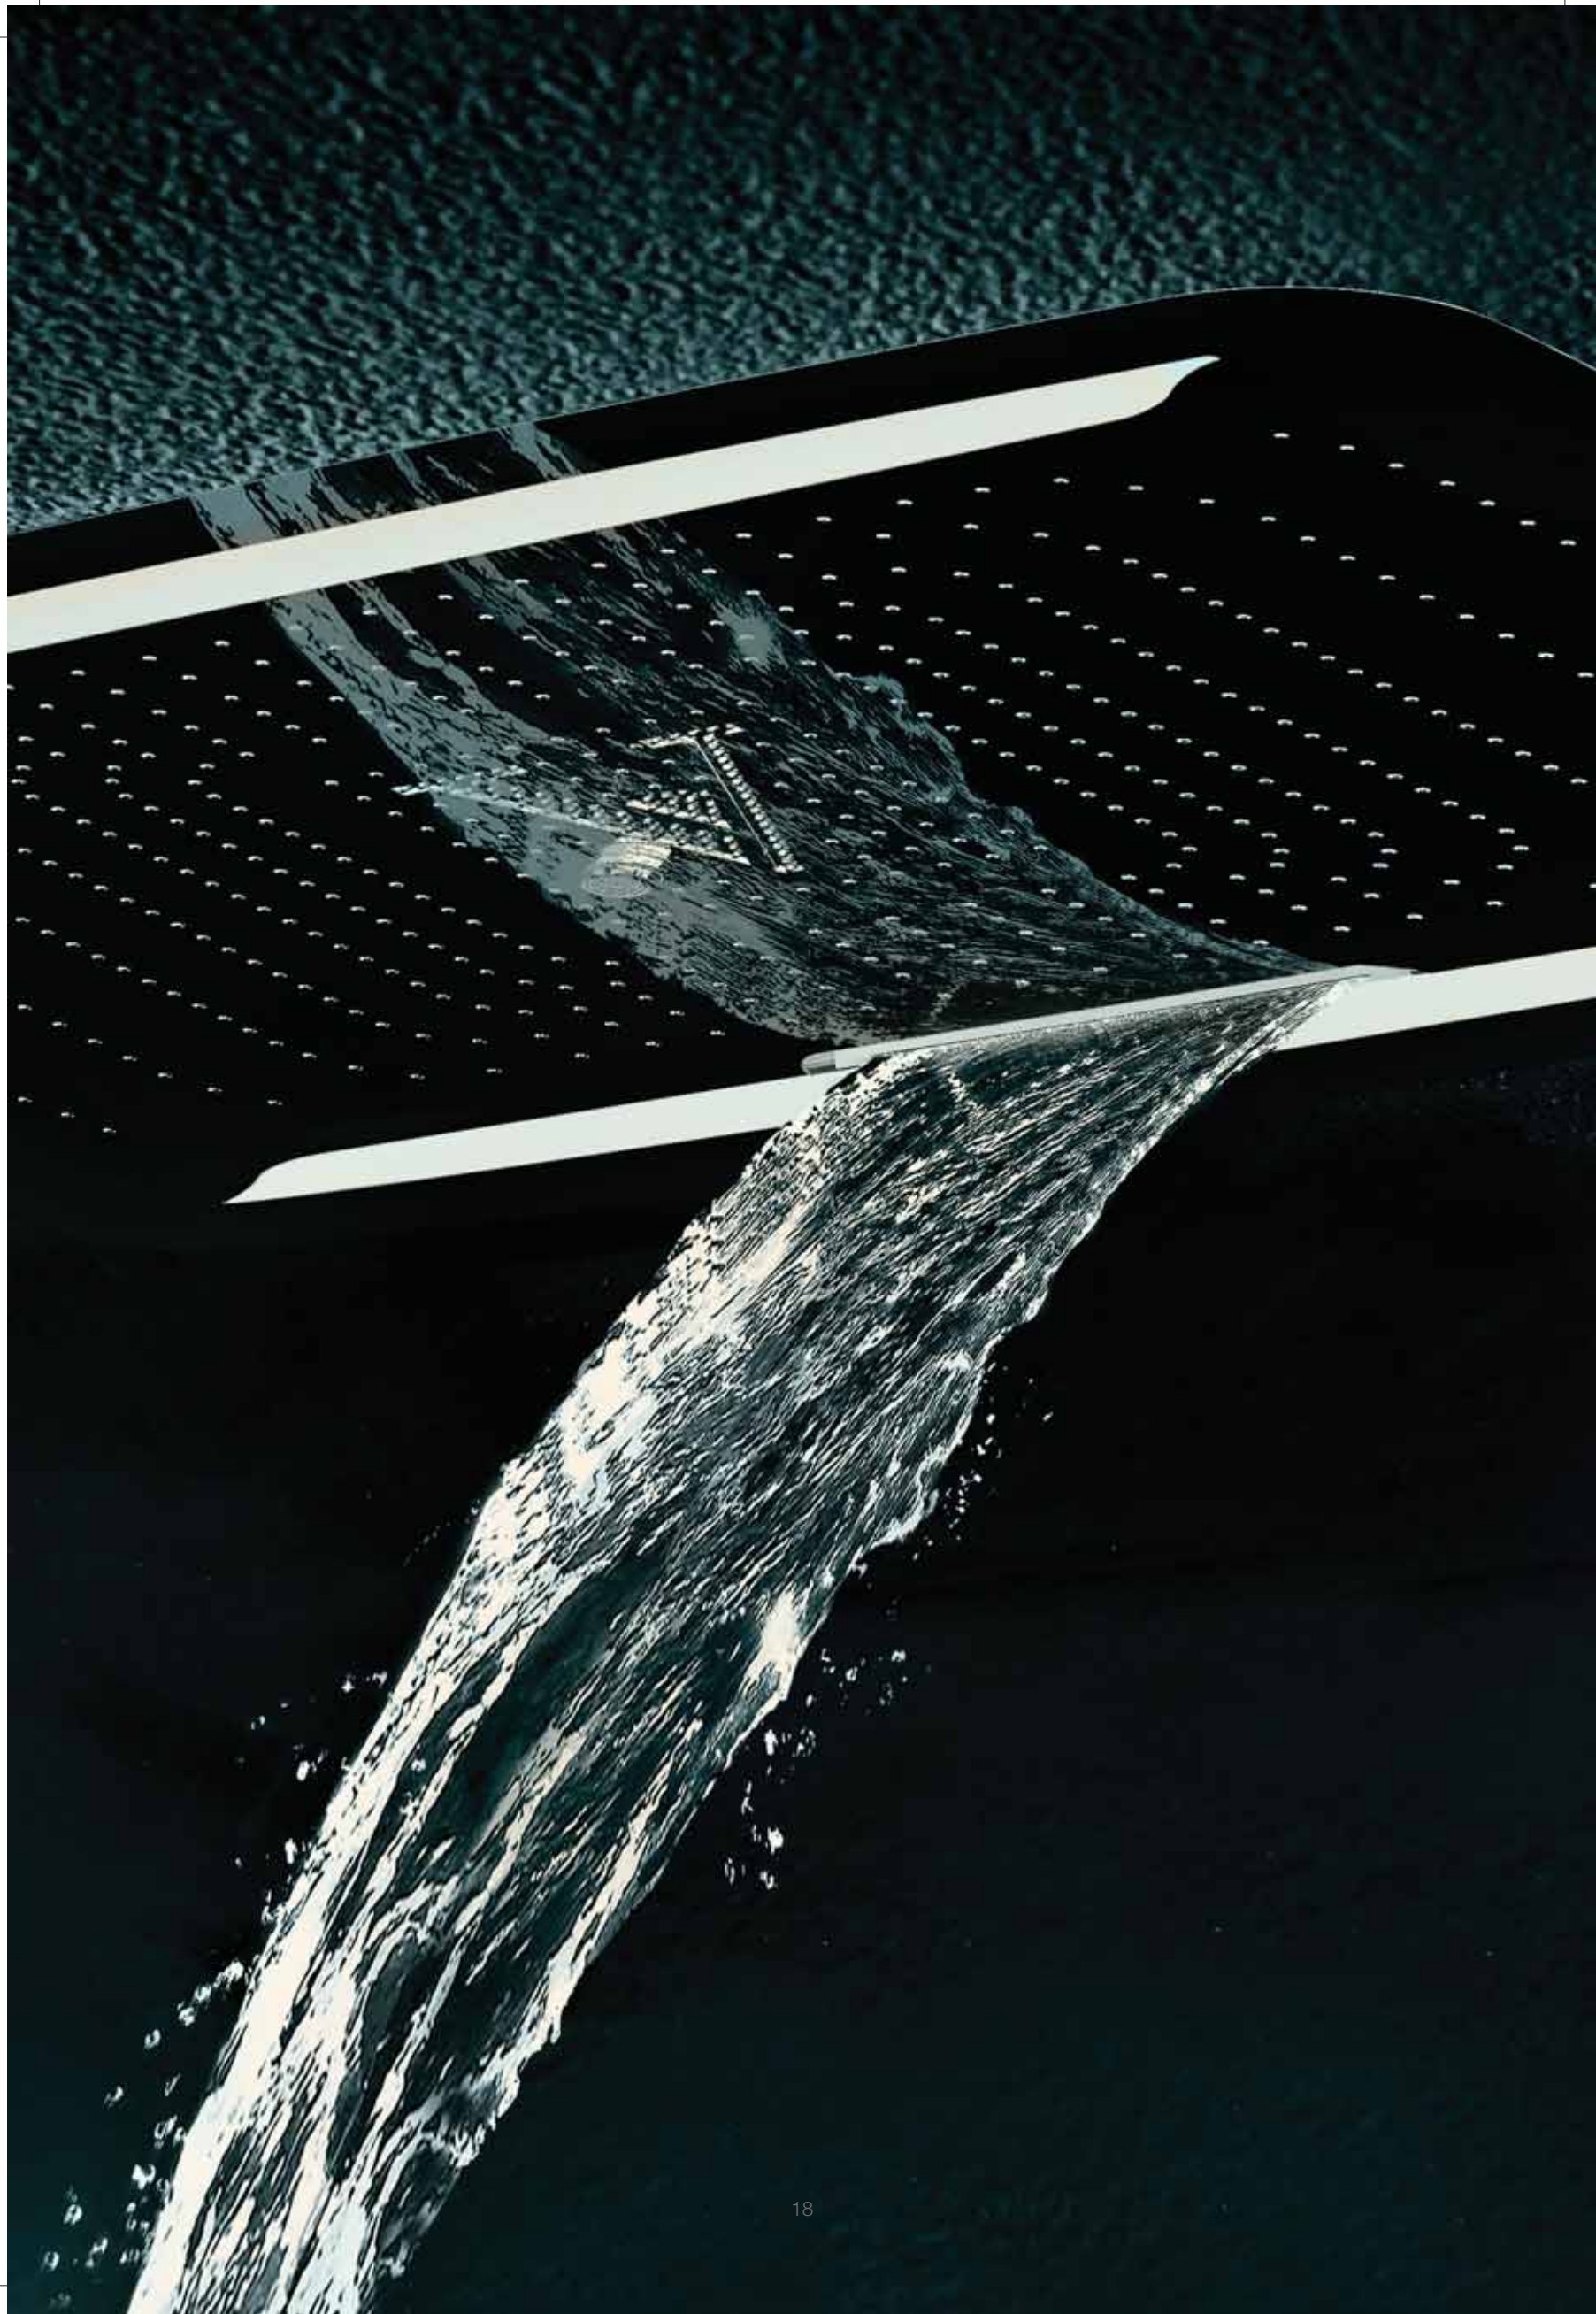

Mist

Lose yourself in the kiss of a million droplets a minute.

Four nozzles recreate the joy of being in a cloud as the Mist mode's floating blanket of feather-touch droplets gently covers you with freshness.

Mist spray is created by forcing water through tiny holes, and this mode is great for hot summer days or after a long, hard work-out.

Waterfall

Surrender to the power of the leaping river.

An unrelenting cascade (or two) of water that arches purposefully down your back, the Waterfall mode's therapeutic effect feels totally natural and timeless, and is perfect for kneading new life into tired backs and shoulders.

Column

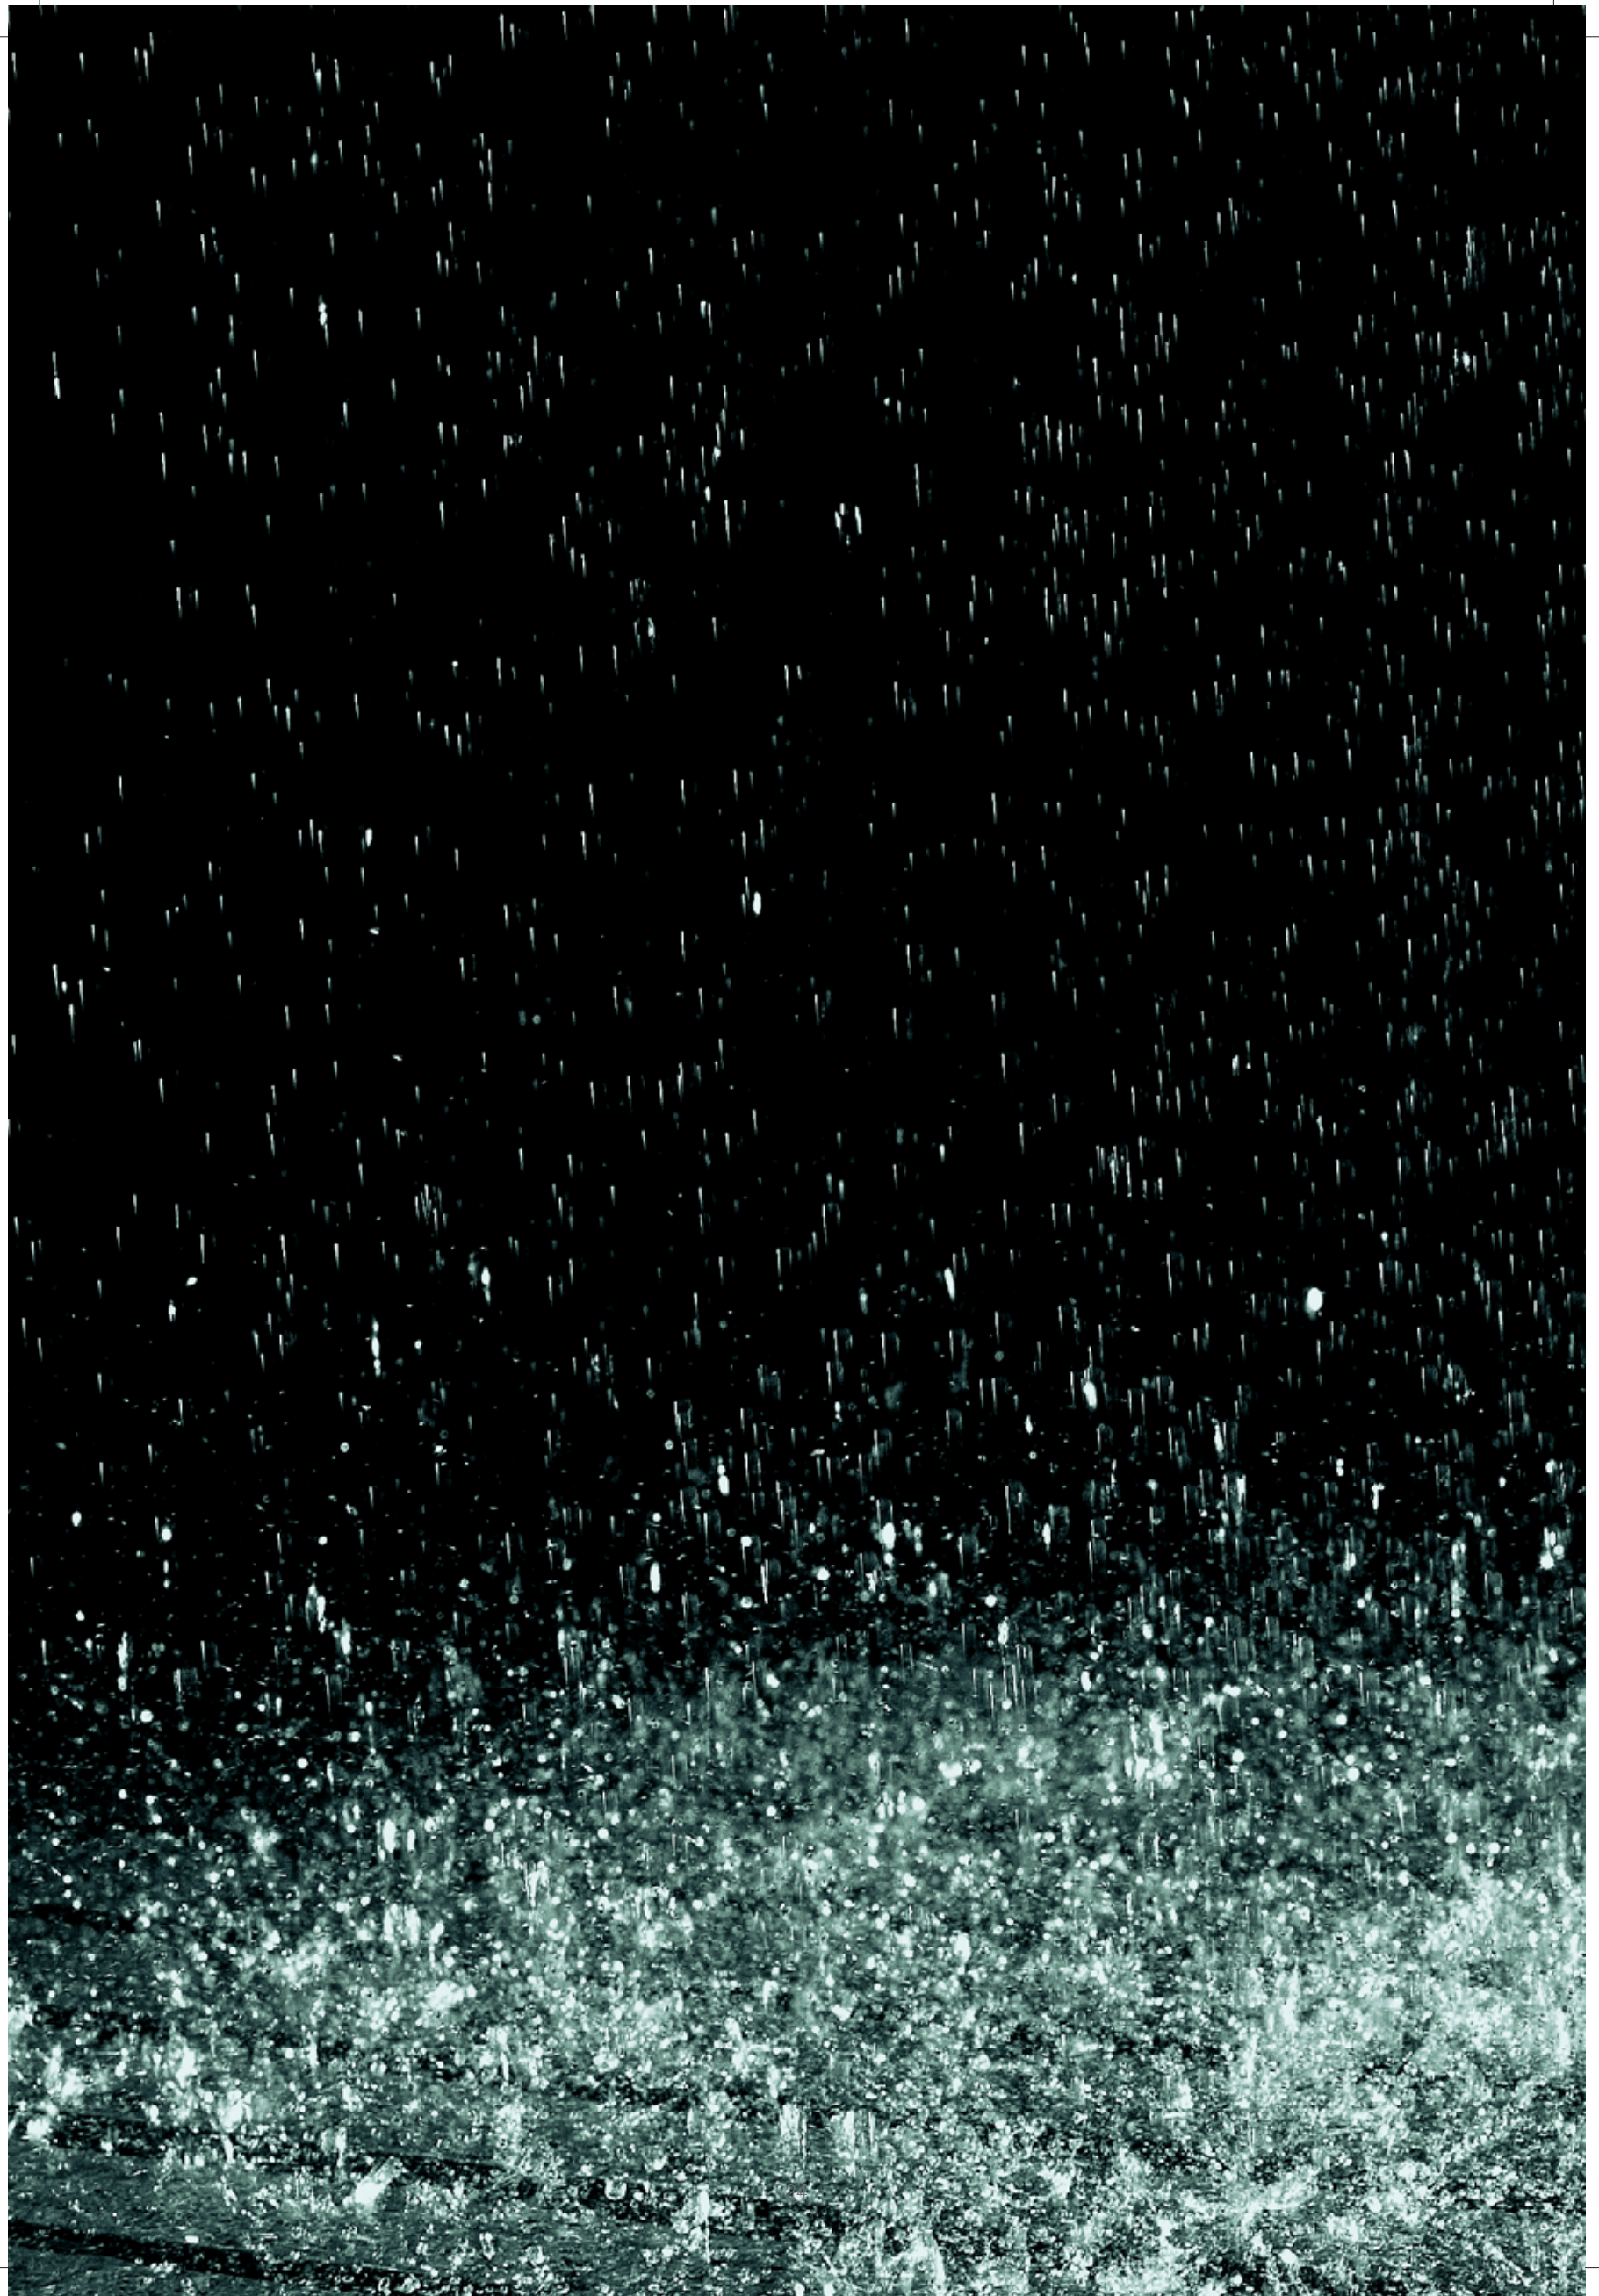

The joy of a focused massage.

The Column mode's perfectly vertical pillar of water uses gravity to deliver invigorating pressure on any part of the body you choose.
