Maker of several revolutionary bathware products, Artize yet again sets the bar high with the Quadro Steam Shower—a steam cabin designed for an immersive spa session in your en suite at your convenience. A brainchild of Claudia Danelon and Federico Meroni of the DanelonMeroni Design Studio, this cabin reflects their long-standing fondness for aqua-centric innovations. “Our design philosophy was to create a product that not only looks beautiful but also provides the ultimate in comfort and relaxation. With its sleek, modern lines and spacious interior, the Quadro is a true work of art that will transform any bathroom into a sanctuary,” says the duo.

#### A WELLNESS ENDEAVOUR BORN FROM ART

Boasting a minimalist form, the Quadro Steam Shower is equipped with cutting-edge technology that guarantees a luxuriating spa session. It includes the finely crafted **Rainjoy LUMOS shower** and **Artize Steam Cabin** for a soothing sauna hour.

With the unique multisensory modes for **aromatherapy** and **chromotherapy**, Artize goes above and beyond to make your nighttime ritual more relaxing. Another standout is the cabin’s **audio feature** that can be used for

streaming serene tunes during a steam shower to put you in a meditative state before bedtime.

**The Thermatik - Concealed Thermostat** offers superior temperature control so that comfort is consistently maintained for the entirety of your shower. Additionally, its stylish design amplifies the beauty of the Quadro Steam Shower. For increased functionality, the cabin accommodates a touch control panel, a hand shower and sizeable seating.

This shower not only quickly de-stresses you but also offers a multitude of health benefits. These include a skin detox, boosted immune system, enhanced cardiovascular function, calorie burn and alleviated body pain.

Redefining the wellness experience, the Quadro Steam Shower by Artize turns your home into a sumptuous retreat—making it a zen-like corner to reboot and savour solitary moments after a long day.
