More than a faucet

Tiaara is a unique combination of effortless functionality within a stunning form. Designed like a piece of jewellery with echoing ovals, it is a faucet that brings a unique sculptural quality to a commonplace function and elevates its usage into a memorable experience.

Tiaara. Jewellery for the bathroom.

Designed by Michael Foley

“The attempt was to build a powerful metaphor to experience design, abstracting functionality into a simple act - elevating conventional usage into something unique and desirable.”

“Tiaara is a perfect balance of handcrafted and machine made processes. Its segmented assemblies allow for ease of manufacture and access to refined hand polishing of every surface.”

A loop to go with the flow

The position of the Tiaara's inner loop determines the temperature of water and the amount that flows. A simple arc of movement provides every flow rate and temperature needed.

Usage made desirable

Redefining the method of dispensing water, Tiaara's lever is an integral part of the faucet, and intuitive to hold and swing out.

A complete ensemble

To provide a consistent aesthetic for the entire bathroom, Tiaara is available in a complete ensemble that carries its silhouette across other fixtures for the bathroom.

Tiaara Rainjoy Shower
with Chromotherapy

A modern bathroom scene featuring a white, curved bathtub in the foreground. The wall behind it is dark and textured, with a large, dark, geometric sculpture made of many triangular facets. A chrome faucet and a chrome diverter are mounted on the wall. The floor has a dark, geometric pattern. The text "Tiaara Thermatik Diverter" is overlaid on the right side of the image.
